

**CORSO PILOTA**

The Corso Pilota program is structured across three progressive levels:  
**Sport - Evoluzione+ - Race**

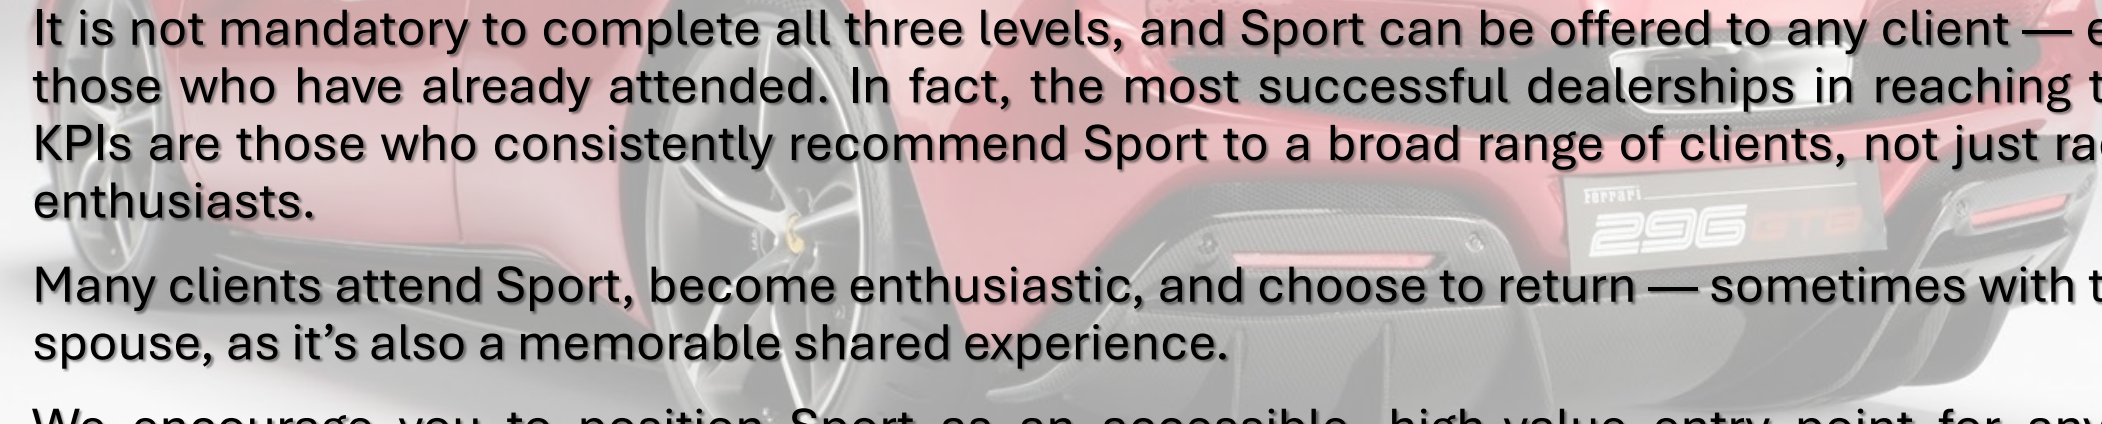

CORSO PILOTA

The **Sport** level is a high-level driving school focused on: *vehicle control, precision, and confidence.*

It stands alone as a complete experience and can be repeated with continued benefit.

- 
- It is not mandatory to complete all three levels, and Sport can be offered to any client — even those who have already attended. In fact, the most successful dealerships in reaching their KPIs are those who consistently recommend Sport to a broad range of clients, not just racing enthusiasts.
  - Many clients attend Sport, become enthusiastic, and choose to return — sometimes with their spouse, as it's also a memorable shared experience.
  - We encourage you to position Sport as an accessible, high-value entry point for anyone interested in exploring Ferrari performance in a safe, structured, and emotionally engaging environment.

Clients seeking a more technical and motorsport-oriented experience can progress to **Evoluzione+** and **Race**.

- These advanced levels are designed as racing schools, introducing professional techniques and the race-ready **296 Challenge**. Evoluzione+ consists of one day focused on mastering the 296 GTB, followed by a second day driving the 296 Challenge — offering a first taste of a true racecar. The **Race** level is entirely centered on the 296 Challenge, with two full days of intensive driving, longer sessions, and race-focused exercises such as rolling starts and overtaking techniques.
- Completion of all three levels is recognized by **IMSA** as part of the qualification pathway for obtaining a racing license. An IMSA official is present during the Race course to observe and validate participant readiness.
